### COANG 23-419 & 23-071

<http://co.ng.mil/JOBS/AGR-Air>

<b>POSITION TITLE:</b> <b>Fuels Management</b>	<b>DAFSC:</b> 2F071	<b>OPEN DATE:</b> <b>15 November 2023</b>	<b>CLOSE DATE:</b> <b>15 December 2023</b>
<b>UNIT OF ACTIVITY/DUTY LOCATION:</b> <b>140th Logistics Readiness Squadron</b> <b>Buckley Space Force Base, CO</b>		<b>GRADE REQUIREMENT:</b> <b>Minimum: E5</b> <b>Maximum: E6</b>	
<b>SELECTING OFFICIAL:</b> <b>MSgt Lane Neally</b> <b>COMM: (720) 847-9745 DSN: 847-9745</b>	<b>(HRO Use Only)</b> <b>TBD</b> <b>OPEN: Immediately</b>	<b>QUALIFICATION REQUIREMENTS:</b> <b>Must hold 2F071 to apply</b>	

#### AREAS OF CONSIDERATION

**Category A: Current members of the 140 LRS, Colorado Air National Guard**

**\*Must hold minimum of 7 level in 2F0X1 to apply\***

*\*All applicants MUST meet the grade requirement and physical/medical requirements outlined\**

All applicants should be aware that the Colorado National Guard does not permit smoking in the workplace. Smoking is permitted only in designated areas during scheduled breaks. Acceptance of an AGR position will cause termination from Selected Reserve Incentive Programs.

#### Position Requirements:

1. There are 4 positions available for this single announcement, and all are located at Buckley Space Force Base.
2. Must be able to work 4/10 work schedule both day or night shift as requested.

#### Duties and Responsibilities:

1. Refer to Air Force Enlisted Classification Directory (AFECD) for specific duties associated with this AFSC.
2. Perform all Noncommissioned Officers responsibilities outlined in the Enlisted Force Structure.
3. Perform duties and responsibilities as required in DAFI23-201 to include: Organize, administer and evaluate a segment of the fuels quality assurance program for the organization. Ensure responsibilities for product compliance inspections of all petroleum activities. Draw fuel samples for frequencies and exact testing following procedures listed in appropriate technical orders. Determine status and adequacy of actions taken on prior inspection items and prepares accurate reports for management use. Conduct statistical surveys of petroleum products in areas where trouble had been encountered. Analyze defect data, isolates trends and recommends corrective action. Investigates problem areas, identifies causes, recommends and takes corrective follow-up action. Verify quality through the application of audit and investigative methods to ensure compliance with established guidelines. Advise responsible supervisors on quality problems and required corrective action. Provide technical assistance to personnel in assigned organization in order to improve quality and enhance safety of equipment and workers using products. Prepare local operating procedures based on supplements, regulations, and manuals of higher echelons in the area of quality assurance. Assist in managing fiscal resources for support of the quality assurance program. Must conduct surveillance inspections during operations of components in pump house and tank farms during receipt, transfer, sampling and issue of petroleum products. Recommend objectives and acts as an advisor on well defined, non-controversial fuels projects to ensure continuous refinement of the quality program in response to test results, processing problems or objective quality evidence. Responsible for maintaining the Quality Control module in the Fuels Automated System Fuels Manager Defense (FMD) database. Document all sampling, sample due dates and the status of all equipment in the FMD. Build and maintain test sets in the Quality Control Module of FMD. Direct, inspect, operate and maintain a complete fuels distribution system(s) to receive, store, transfer and issue both aviation and ground fuels. Operate petroleum products distribution equipment by initiating and controlling the movement and storage of supplies throughout complete pipeline or tank farm systems, using telephone communications, signal systems, a central control board, or similar facilities. Inspects systems for leakage, corrosion, faulty fittings, and inoperative components such as distribution lines, storage tanks, hydrant pits/outlets, oil/water separator, pumps, automatic/manual valves, meters, and system control rooms. Perform operator maintenance to include checking components for operation, adjustment, pressures, and external leakage under pressure, removing/cleaning/inspecting receipt and dispensing strainers, calibrating additive injectors, draining water from lines, tanks, filter separator vessels and dike/containment areas. Report more extensive repairs/needs. Conduct all additional required environmental inspections. Initiate emergency procedures as necessary. Operate one or more types of special purpose design aviation and ground fuel

tank truck vehicles having a capacity of up to 6,000 gallons and gross vehicle weight of 70,000 pounds used for fueling/defueling various types of aircraft and ground fuels applications such as AGE, power production, heating and engine test cells. Transport fuel from the bulk storage area to the flight line issue point, positions the vehicle for the refueling/defueling task as required. Monitors vehicle mounted main control panel, gauges, meters and instruments. Exercise safety precautions during fueling/defueling operations. Inspects and performs operator maintenance and safety checks to ensure that refueling equipment is safe and operational. Troubleshoot, test, and repair all aspects of mechanical & electrical systems and their subcomponents to include AC generators, complex wiring harnesses, regulators, automatic relays, AC and DC power generation circuitry, electrically controlled solenoids. Inspect, maintain, perform operator maintenance, and minor repairs to support equipment and cryogenic samplers to include the following: air purging units, vacuum gauges, vacuum pumps, portable efficiency meters, portable samplers and other support equipment that is required to maintain the cryogenic storage tank in a ready condition to receive, store and transfer LOX or LIN. Applies safety or precautionary procedures required in handling cryogenic fluids. Analyzes, isolates, and corrects system malfunctions. Ensure that parts are cleaned and certified as suitable for oxygen/nitrogen servicing. Performs periodic sample of cryogenic purity using FCS2001 with pressurized cylinders (1300-1800 psi) for shipment to area lab. Performs other duties as assigned.

## INSTRUCTIONS/INFORMATION FOR APPLICANTS

Applicants must not be entitled to receive Federal military retired or retainer pay or Federal civil service annuities and not be eligible for immediate Federal civil service annuities	Individuals who have been separated from other military services for cause, unsuitability, or fitness for military service are not eligible to enter the AGR program	IAW ANGI 36-101 "Initial tours may not exceed 6 years..." AGR tours may not extend beyond an Enlisted member's ETS or an Officer's MSD
In order to properly manage the promotion opportunities and proper career management in the AGR program, Colorado HRO force management policy considers an applicant's total active federal military service (TAFMS) as a factor in hiring. The organizational standard is >8 years for entry as an E7 or O4, >12 years for entry as an E8 or O5, and >16 years for entry as an E9 or O6. This is a baseline standard that may be waived on a case-by-case basis provided the waiver is in the best interest of the organization. If applicable, the selecting supervisor will seek a waiver on the applicant's behalf; applicants have no responsibility to seek a waiver to this policy.	Individuals selected for AGR tours must meet the Preventative Health Assessment (PHA)/physical qualifications outlined in AFI 48-123, <i>Medical Examination and Standards</i> . They must also be current in all Individual Medical Readiness (IMR) requirements to include immunizations. RCPHA/PHA and dental must be conducted not more than 12 months prior to entry on AGR duty and an HIV test must be completed not more than six months prior to the start date of the AGR tour. Individuals transferring from Title 10 (Regular Air Force or Reserve Component Title 10 Statutory Tour) are not required to have a new physical unless the previous physical is over 12 months old at time of entry into AGR status	An applicant's military grade cannot exceed the maximum military authorized grade on the UMD for the AGR position. Enlisted Airmen who are voluntarily assigned to a position which would cause an over-grade must indicate in writing a willingness to be administratively reduced in grade in accordance with AFI 36-2502, <i>Enlisted Airman Promotion/Demotion Programs</i> , when assigned to the position. Acceptance of demotion must be in writing and included in the assignment application package.
ANGI 36-101 "applicant must be able to complete 20 years of active federal service prior to MSD for officers and age 60 for enlisted members. Exceptions may be considered...."	This vacancy announcement may be used to create an order of merit list (OML) from which additional like vacancies may be filled without further competition. Applicants may remain on this OML for up to 90 days.	Any further questions regarding the AGR program may be answered in ANGI 36-101

## APPLICATION PROCEDURES

- Complete applications must be received no later than 2359 Mountain Time on the close date.
- Applicants without email access may make special arrangements to deliver applications by contacting the Air AGR Office via one of the methods below.
- Applicants may include copies of training certificates or any additional documentation they feel is applicable to the position for which they are applying.

### UNSIGNED OR INCOMPLETE PACKAGES WILL BE DISQUALIFIED

#### **Required Documents:**

1. NGB Form 34-1, version 20131111 (<http://co.ng.mil/JOBS/AGR-air>)
2. Military Resume (Cover letter optional)
3. Current (within 30 days) Records Review RIP (available on vMPF via AF Portal)
4. Current and passing Report of Individual Fitness from MyFSS (must be current as of close date on announcement)

**Attach all files as original pdf documents (not scanned) individually or in a single pdf portfolio.**

**Application option 1:** Email applications to: [140.wg.hro.agr.office.org@us.af.mil](mailto:140.wg.hro.agr.office.org@us.af.mil)

**Applicants will receive confirmation of receipt and qualification status once the application is processed. If you do not receive confirmation within (5) business days, please contact [140.wg.hro.agr.office.org@us.af.mil](mailto:140.wg.hro.agr.office.org@us.af.mil)**

For questions regarding AGR application procedures, please contact the Air AGR Office via email at [140.wg.hro.agr.office.org@us.af.mil](mailto:140.wg.hro.agr.office.org@us.af.mil)

## REMARKS

Federal law prohibits the use of government postage for submission of applications.

**The Colorado National Guard is an equal opportunity employer.**

All applicants will be protected under Title VI of the Civil Rights Act of 1964. Eligible applicants will be considered without regard to race, age, religion, marital status, national origin, political affiliation or any other non-merit factor. Due to restrictions in assignment to certain units and AFSC/MOS some positions may have gender restrictions.

Potential for promotion in the position is contingent upon assignment to the appropriate UMD grade, compliance with ANGI 36-101 grade compatibility requirements and, if applicable, the availability of an AGR control grade. Selection for the position at a higher grade does not automatically constitute the immediate availability of an AGR control grade required for promotion to the higher grade.
