**BRIEF JOB DESCRIPTION:**  
 A Traffic Management Specialist plans and organizes traffic management activities, receives and packages items for shipment or storage, prepares budget estimates for materials and equipment, and inspects items for identity, quantity, and condition.

The Specialist also certify hazardous cargo to be moved by surface and air, advise on procurement and distribution, and ensure convoy, hazardous, or oversized permits are required before movement.

In addition, a Traffic Management Specialist uses carrier tariffs and rates to determine the mode and cost of commercial transportation to move personal property, arranges shipment and storage of personal property, determines and schedules proper carrier equipment for loading and unloading, maintains and issues transportation documents, prepares re-weighs and loss and damage reports, and operates and maintains material-handling equipment, such as forklifts and hand trucks.

It is mandatory to have knowledge of federal and military transportation regulations, instructions, and directives; passenger and personal property entitlements; quality assurance evaluation procedures, United States and foreign customs regulations, and warehousing procedures.

It is also required to know military passenger, freight, and personal property rate computations; packaging methods, specifications, and orders; hazardous cargo requirements; blocking, bracing, and tie down principles; and carrier capabilities and procedures for movement of passengers, cargo, and personal property in military and commercial air, rail, truck, and water systems.

Experience supervising functions such as packaging, packing, and quality control of personal or government property, or arranging transportation for DoD personnel.

The announcement is for AGR within the 140th LRS with a 2T051 or 2T071 AFSC.

**SELECTING SUPERVISOR:**
