DUTIES AND RESPONSIBILITIES

DUTIES and RESPONSIBILITIES:

1. Plans, directs, coordinates, and evaluates activities necessary to the overall management of a diverse weapons/explosives safety program affecting multimission installation and tenant command organizations. Reviews weapons and explosives safety plans/programs. Ensures and performs periodic inspections, evaluations, and surveys of facilities, equipment, and operations; and identifies deficiencies in the program and variances to the standard to determine compliance with weapons and explosives safety regulations. Evaluates weapons and explosives safety problems or circumstances; determines risk assessment of the hazardous processes/conditions identified; and determines applicable methods and procedures for controlling or eliminating hazards. Documents and reviews inspection findings, initiates an appropriate program improvement based on findings, and prepares formal reports. Advises key personnel of courses of actions affecting weapons and explosives transportation, storage, handling operations, work processes, human-machine relationships, and environmental conditions which impact on the safety and efficiency of personnel. Recommends appropriate measures to prevent unnecessary exposure and eliminate or control hazardous operating procedures. Ensures follow-up inspections are conducted and violations and hazards corrected.
2. Plans, directs, and conducts investigations and analyzes mishaps and hazardous conditions to determine origin, causes, and contributing elements and prepares written evaluation reports concerning findings. Compiles and analyzes mishap data, identifies trends, and develops comprehensive recommendations to reduce or eliminate mishaps.
3. Prepares supplements to instructions and manuals and develops specialized local instructions defining mishap prevention, weapons and explosives handling, use and storage procedures based on interpretation and/or adaptation of higher command instructions and policies formulated by other federal government agencies. Evaluates new trends for policy development or for further inquiry and study leading to new methods for eliminating or controlling serious hazards to life and property. Coordinates with other installation offices regarding comprehensive environmental, weapons and explosives safety matters affecting installation personnel and devises specialized operating practices involving diverse but recognized hazards.
4. Reviews and develops explosives site plans (utilizing manual and automated techniques) and specifications for new construction, major building alterations, and/or changes in installation equipment and monitors project through completion to ensure compliance with explosives safety standards and safety codes. Recommends design changes not included in the original plan and provides technical recommendations to eliminate or control explosives safety hazards in the construction, repair and maintenance of installation facilities and equipment. When need arises, stops any operation that is of imminent danger to personnel or property. Develops specialized operating practices affecting construction matters associated with diverse but recognized hazards and attends pre-construction conferences to brief contractors on explosives quantity-distance (QD) safety requirements. Identifies potential safety hazards to assure adequate life safety code compliance.

DUTIES and RESPONSIBILITIES (Cont'd):

4. cont'd. Randomly spot checks construction sites and notifies contracting officer when explosives safety exposure distance violations or unsafe practices are observed. Consults with engineering and/or logistics personnel to provide up-to-date environmental and explosives safety criteria or standards on equipment to be purchased, architectural drawings, or planned operating procedures.

5. Develops and provides technical safety training/instruction to supervisors, employees, and/or unit explosives safety representatives on a wide range of work operations areas, such as risk assessment, transportation, handling, proper storage of hazardous materials, and evacuation procedures. Extracts, compiles, and prepares safety articles, bulletins, and pamphlets for local use by base personnel. Maintains required course documentation/records.

6. Performs other duties as assigned.

SPECIALTY QUALIFICATIONS:

1. Must hold 7 level in AFSC's 2W0, 2W1 or 2W2

2. Must hold or attend 6 week school to obtain SEI 375 (Weapons Safety Manager) *Must obtain with 1 year*
