<input checked="" type="checkbox"/> Current COANG members	<input type="checkbox"/> Commissioning Opportunity
<input checked="" type="checkbox"/> Enlisted <input type="checkbox"/> Officer	

All applicants MUST meet the grade requirement and physical/medical requirements outlined

DUTIES AND RESPONSIBILITIES

DUTIES and RESPONSIBILITIES:

Supply Chain Management: Airmen working in this career field learn to manage munitions materiel and components throughout the supply chain from acquisition to disposal. Airmen will utilize various transportation modes such as air, sea, rail, and ground while managing the shipment of hazardous cargo and components across the global Air Force enterprise. Additionally, they will perform munitions materiel management, logistics, and accounting functions to ensure compliance with Department of Defense Financial Improvement and Audit Remediation (FIAR) objectives. This involves managing inventory processes and controlling auditable source documentation to ensure validity and completeness. Airmen learn how to monitor excess materiel, develop maintenance schedules, and operate inventory management software for materiel accounting, reporting, and configuration tracking. Munitions Airmen will oversee periodic surveillance inspection cycles and coordinate with maintenance activities on reliability status of and corrective actions for components.

Production and Project Management: Airmen learn the process and art of targeted munitions assembly and mass production to meet mission requirements. They will learn how to collaborate and prioritize operational requirements to optimize internal and external customer support. As their experience increases, Airmen will develop plans, schedules, dynamic teams, and innovative strategies for more complex operations and objectives.

Resource and Program Management: Munitions Systems Airmen learn to procure, manage, operate, and maintain DoD munitions specific testing equipment as well as a wide range of vehicles and handling equipment commonly used in the private sector such as flatbed trucks, 4k-50k forklifts, 25–40-foot tractor trailers, pallet jacks, pneumatic hoists, and aerospace ground equipment. They will develop the skills and techniques required to manage programs, facilities, personnel, and data in accordance with Air Force, Department of Defense, state, federal and international policies.

Leadership and Personnel Management: Upon arrival at their first base, Airmen immediately begin learning how to be a crew member during munitions operations. As Airmen gain experience and are awarded the Journeyman skill level they may earn Crew Chief certification, allowing them to lead a small explosive operations team to accomplish the mission, while adhering to explosive safety and Occupational Safety and Health Administration (OSHA) standards. Upon award of the Craftsman skill level, Munitions Systems Airmen are tasked with roles such as Production Supervisor and/or Noncommissioned Officer in Charge (NCOIC) and are responsible for leading several teams within the nine sections of the Flight/Squadron organizational structure. Lastly, as Munitions Systems Airmen continue to refine their leadership skills, they will be awarded the Superintendent skill level. As Superintendents they will have the responsibility to lead multiple NCOIC teams within the Production, Materiel, and System Flights/Sections or assigned as a Senior Enlisted Leader, Major Command Functional Manager, or Career Field Functional Manager.

DUTIES and RESPONSIBILITIES (Cont'd):

Training and Development: The Munitions Systems career field places significant focus on training and development of Airmen. Technical training programs are held at Sheppard AFB, Texas; Beale AFB, California; Field Training Detachments worldwide; and at individual units. Throughout an Airman's Munitions Systems career, they may be expected to attend up to five advancement courses to qualify for key positions, skill level upgrade, and college credits towards the Munitions Systems

Technology degree from the Community College of the Air Force. They also have opportunities to earn logistics, acquisition, information technology, and project management certifications, as well as serve in key roles as instructors, advisors, evaluators, managers, and leaders at all Air Force organizational levels. Additionally, Munitions units also establish local recurring training and development programs for all skill levels and ranks, ensuring continued growth for Airmen throughout their career.

SPECIALTY QUALIFICATIONS:

Knowledge of the following is mandatory: composition and characteristics of munitions and associated items, safety, storage, security and environmental requirements and procedures; techniques for munitions inventory and stock control and other materiel management processes and systems; technical guidance and drawings; precision measuring tools and equipment; handling, use, and disposition of hazardous and nonhazardous materials.

APPLICATION PROCEDURES

Interested applicants who meet the eligibility criteria listed in this announcement may apply by submitting the below listed documents to the location below. Complete applications must be received no later than 2359 on or before the closing date.

Selecting officials have the right to hold package review boards prior to in-person interviews
