DUTIES AND RESPONSIBILITIES

DUTIES and RESPONSIBILITIES:

Systems Administrator, Network Operations and Expeditionary Communications Specialist. Manage and maintain client devices and accounts as well as routine tasks on network devices and infrastructure to troubleshoot and resolve network connectivity issues. Network Operations Specialist install, support, and maintain network infrastructure devices and systems. Each role requires a unique set of skills and competencies, and IT systems personnel may specialize in one or more of these work roles depending on their expertise, interests, and the position requirements. IT systems manage and perform Warfighter Communications in all environments in support of the overall requirements to survey, secure, protect, defend, preserve, design, build, operate, and extend data, networks, net-centric capabilities and other designated systems.

System Administrator: Design, build, provision, maintain, and sustain information systems, including warfighter communications, within the Department of the Air Force (DAF). The individual will install, support, and maintain server operating systems or other computer systems and the software applications pertinent to its operation, while also ensuring current defensive mechanisms are in place.

Network Operations Specialist: Qualified as Network Operations Specialist, design, build, provision, maintain, and sustain information systems, including warfighter communications, within the Department of the Air Force (DAF). This role is responsible for deploying, sustaining, troubleshooting, and repairing standard voice, data, and video network infrastructure systems, IP detection systems, and cryptographic equipment. The individual is also responsible for fabricating, terminating, and interconnecting wiring and associated network infrastructure devices.

Expeditionary Communications: Delivers cyber capabilities in austere and mobile environments. This includes all applicable statutes, but specifically datalinks, the building, operating, maintaining, securing, and sustaining of tactical and communications networks when needed to support warfighter requirements, systems employed in austere, mobile, and/or expeditionary environments, to provide command and control in support of Air and Space Force missions.

DUTIES and RESPONSIBILITIES (Cont'd):

SPECIALTY QUALIFICATIONS:

- Must have TS/SCI
- Must be world-wide deployable, deployment experience preferred
