BRIEF JOB DESCRIPTION:

This position is the primary production control conduit for the LUH-72 program. Manage and track scheduled maintenance through DA Form 2408-18 inspections. Balance scheduled maintenance and unscheduled maintenance by prioritizing work orders, ensuring aircraft maintenance is accurately documented, and employing support agencies. Ensure maintenance forms are maintained I.A.W common Army and FAA standards and that the LIS reflects accurate aircraft status at all times. Accurately capture the time each aircraft spends as FMC, PMC, NMC and NMCS for the I352 report. Ensure technicians initiate action on any fault within 72 hours of fault discovery. Coordinate COAASF LUH-72 helicopter fleet maintenance, and transfers performed by or coordinated with internal and external organizations. Effectively prioritize work, and efficiently apply resource management IAW ATP 3-04.7 Manage the LUH-72 fleet in accordance with DA standards, Maintenance Officer direction, and commander guidance. Support the LUH-72 FHP for the FY by working closely with ATP manager and ATP Commander to accomplish organizational mission goals. Oversee and manage quality control. Attend routine meetings to brief LUH program status, request higher-level assistance, and maintain communication flow with Maintenance Leadership. Additionally, this position ensures technicians are actively working within the position description they were hired for and/or the assigned additional duties. Execute tasks assigned by the Maintenance Officer or ALMO in support of the flight company commander requirements. Manage administrative tasks to ensure that employees stay engaged. This encompasses a variety of routine tasks such as new employee onboarding, leave management, mentorship/training, and performance management. Maintain air crew member status as a Readiness Level 1 Pilot. Conduct required training IAW ATP references. Respond to mission requests as a pilot during state emergencies and other requests including test flights
