BRIEF JOB DESCRIPTION:

The Nuclear Medical Science Officer (NMSO) is the principal operator of the Analytical Laboratory System, a crew-served mobile laboratory system used to analyze chemical, biological, radiological, and nuclear (CBRN) materials. Advises the Incident and CST Commanders on a variety of health-related issues involving the affected population. Acts as a resource regarding the potential spread of causative agent(s) and potential effects on the population. Provides advice on methods to control the affected area and begin or cease quarantine procedures. Assimilate information collected by the reconnaissance teams and translates relevant data into meaningful information for the commanders. Provides recommendations for down range analyses and collection of samples, based upon the reconnaissance team's findings.

Additional Information: Civil Support Teams are fast paced with an abundance of additional training and TDY. Applicants must be willing to relocate within a 60-minute commute to Buckley SFB and be willing to serve at a minimum of 36 months after the completion of CSSC IAW CNGBM 3501.00. Applicants must attend the Civil Support Skills Course (CSSC) at the next available course after being placed on the UMR. Applicants must hold the AOC of 72A. In order to be considered for 72A, applicants must have completed, at a minimum, a bachelor's degree from an educational program accredited by the Council on Education for Public Health (CEPH) or an agency acceptable to the Surgeon General with a major in a public health-relevant field. Preferred majors include public health, environmental health, industrial hygiene, environmental science, epidemiology, and safety management. Degrees with 45 semester hours of mathematics, physics, chemistry, biology and/or

physical sciences may also be considered. Candidates are highly encouraged to review the qualifications for the award of the MOS in DA PAM 611-21 and DA Pam 600-3. 72B/D/E are also eligible but must be approved by the ARNG.
